FLOOR DEBATE

the soil and so on, and so the erosion doesn't take place, although I know of one smaller body of water that's between Craig and Tekamah, I believe it is, in Burt County that was a Natural Resources District's function in getting that established, and now it is a state recreation area and used extensively by the people in Burt County. You have Blair is fairly close, Tekamah is close, Decatur, some of those areas.

SENATOR CUDABACK: One minute.

SENATOR JANSSEN: So...and I'm wondering, maybe we can find that out a little later from Senator Schrock, but he is...he's visiting with Senator Chambers right now. I believe they're coming to some kind of a consensus, hopefully. But, anyway, that is something for us to think about. When the Natural Resources Districts do create one of those lakes, what's going to happen to it? Have the resources districts the authority to maintain that and keep the ground around the lake in...free of vegetation that would be harmful, the noxious weeds and so on? So this is something I would like to find an answer to. And I believe that we're probably going to be on this bill for quite some time yet. Maybe someone, Senator Schrock, can answer that question for me. I'll turn my light on again, not this morning because it is noon right now and we will probably recess shortly. So thank you, Senator Cudaback, and thank you for letting me have the time to discuss this very important issue.

SENATOR CUDABACK: You're welcome, Senator Janssen. Mr. Clerk, any items?

CLERK: I do, Mr. President. Committee on Revenue reports LB 355 to General File with amendments. Transportation reports LB 102, LB 185, LB 186, LB 187 to General File; LB 101 to General File with amendments; LB 371, General File with amendments; and LB 82 as indefinitely postponed. Mr. President, Senator Jones would like to add his name to LB 123 as cointroducer. (Legislative Journal pages 339-341.)

And I do have a priority motion. Senator Price would move to adjourn until Thursday morning, January 30, at 9:00 a.m.
